DECLARATION OF FTC INVESTIGATOR MATTHEW J. THACKER
PURSUANT TO 28 U.S.C. § 1746

I, Matthew J. Thacker, declare that I have personal knowledge of the facts set forth below. If called as a witness before any court, I could and would testify as follows:

1. I am over the age of 21 and competent to give this declaration. Prior to July 2017, I was a Federal Trade Investigator with the Federal Trade Commission (FTC), located at 1999 Bryan Street, Suite 2150, Dallas, Texas 75201. I am currently a Special Agent with the United States Army Criminal Investigation Command. I am a Certified Fraud Examiner and have a Bachelor of Science degree in Criminal Justice. I have more than ten years of investigative experience in civil and criminal matters.

2. As an Investigator with the FTC, my primary duties included, but were not limited to: identifying patterns of unfair and deceptive trade practices; conducting computer research using a variety of Internet search engines, public record and law enforcement databases, and computer software-based investigative tools; capturing online content and videos using capture tools; requesting, receiving, and examining information provided by third parties, including information provided by financial institutions, state agencies, and other organizations; and analyzing data related to possible violations of the Federal Trade Commission Act and other laws enforced by the FTC.

3. As part of my duties with the FTC, I was assigned to work on the investigation of Bitcoin Funding Team (BFT), an Internet operation that claims to be a crowdfunding platform.

Websites and Videos Associated With BFT

4. During the course of my investigation into BFT, I conducted general Internet searches for websites, video and audio recordings, and documents related to BFT. Through these searches, I located several such websites, videos and audio recordings, and other materials. The materials I captured are described below; certain of the materials are attached to this Declaration and marked "Thacker Declaration Attachment."

5. I captured websites using Adobe Acrobat X Pro software and Camtasia Studio. Adobe Acrobat X Pro software is a tool that allows users to create a copy of a website and save it as a PDF file. Camtasia Studio allows users to create a video recording of a website. On April 19, May 3, and May 19 of 2017, I captured each of the following websites:

a. bitcoinfundingteam.com (captured with Camtasia on April 19, 2017) (Attachment 1);

b. bitcoinfundingteam.blogspot.com (captured on May 3, 2017) (Attachment 2);

c. teamallbitcoin.com (captured on May 19, 2017) (Attachment 3); and

d. 2020travel.blogspot.com (captured on May 3, 2017).

6. I captured videos and audio recordings using Real Downloader. Real Downloader is a tool that allows users to download and preserve video and audio files. On April 10, April 19, May 3, May 19, and June 2 of 2017, I captured each of the following video and audio recordings:

a. "Don't Miss This All About Bitcoin!! Tonight is Ladies Night with Bitcoin Funding Team" (captured from

Thursday Night Call 9 PM Central Time -

FACT WHY BITCOIN ?? WHY BITCOIN FUNDING TEAM??

Bitcoin is different than any currency you've used before, so it's very important to understand some key points. Unlike government-issued money, that can be inflated at will, the supply of bitcoin is mathematically limited to twenty-one million bitcoins, and that can never be changed.

Whatever you have tried in the past may or may not have succeeded...either

way that's in the past!

Today is your time and now is your opportunity to create the future you want...

and the Bitcoin Funding Team offers you the means by which you can achieve it!

Bitcoin is the simplest way to exchange money at very low cost.

Bitcoins for Individuals

Bitcoins for Businesses

Bitcoin on mobiles allows you to pay with a simple two step scan-and-pay. No need to sign up, swipe your card, type a PIN, or sign anything. All you need to receive Bitcoin payments is to display the QR code in your Bitcoin wallet app and let your friend scan your mobile, or touch the two phones together (using NFC radio technology).

-Bitcoin transactions are secured by military grade cryptography. Nobody can charge you money or make a payment on your behalf. So long as you take the required steps to protect your wallet, Bitcoin can give you control over your money and a strong level of protection against many types of fraud.

- Just like with email, you don't need to ask your family to use the same software or the same service providers. Just let them stick to their own favorites. No problem there; they are all compatible as they use the same open technology. The Bitcoin network never sleeps, even on holidays!

-There is no fee to receive Bitcoins, and many wallets let you control how large a fee to pay when spending. Most wallets have reasonable default fees, and higher fees can encourage faster confirmation of your transactions. Fees are unrelated to the amount transferred, so it's possible to send 100,000 Bitcoins for the same fee it costs to send 1 Bitcoin.

-Any business that accepts credit cards or PayPal knows the problem of payments that are later reversed. Chargeback frauds result in limited market reach and increased prices, which in turn penalizes customers. Bitcoin payments are irreversible and secure, meaning that the cost of fraud is no longer pushed onto the shoulders of the merchants.

-Sending Bitcoins across borders is as easy as sending them across the street. There are no banks to make you wait three business days, no extra fees for making an international transfer, and no special limitations on the minimum or maximum amount you can send.

Sending Bitcoins across borders is as easy as sending them across the street. There are no banks to make you wait three business days, no extra fees for making an international transfer, and no special limitations on the minimum or maximum amount you can send.

Most wallets have reasonable default fees, and higher fees can encourage faster confirmation of your transactions. Fees are unrelated to the amount transferred, so it's possible to send 100,000 Bitcoins for the same fee it costs to send 1 Bitcoin.

-With Bitcoin, there is no credit card number that some malicious actor can collect in order to impersonate you. In fact, it is even possible to send a payment without revealing your identity, almost like with physical money. You should however take note that some effort can be required to protect your privacy.

-
Accepting credit cards online typically requires extensive security checks in order to comply with the PCI standard. Bitcoin still requires you to secure your wallet and your payment requests. However, you do not carry the costs and responsibilities that come with processing sensitive information from your customers like credit card numbers.

-Bitcoin is an emerging market of new customers who are searching for ways to spend their Bitcoins. Accepting them is a good way to get new customers and give your business some new visibility. Accepting a new payment method has often shown to be a clever practice for online businesses.

-Bitcoin also includes a multi-signature feature which allows Bitcoins to be spent only if a subset of a group of people authorize the transaction. This can be used by a board of directors to prevent any member to make expenditures without enough consent from other members, as well as to track which members allowed each payment.

-Many organizations are required to produce accounting documents about their activity. Using Bitcoin allows you to offer the highest level of transparency since you can provide information your members can use to verify your balances and transactions. Non-profit organizations can also allow the public to see how much they receive in donations.

Who Can Use Bitcoin Funding Team?

TEAM ALL BITCOIN is for anyone wanting a little more from life.

This unique Pay-It-Forward crowdfunding platform is ideal to gather donations for the causes and organizations that are most important to you. Don't forget about yourself

though.

Use TAB to receive Bitcoin donations yourself as well.

If you have not already begun to accumulate Bitcoin, you need to begin right now! It is not to late to capitalize on the continued explosive growth of Bitcoin. Watch as the world begins to discover how Bitcoin benefits are spreading around the globe! See what that does to the value of the Bitcoins you receive!

Goal Setting

It is important to make an initial sacrifice of time to get your business off to a Quick Start. There is a learning curve in any new business and by making an extra commitment of time you will be able to shorten your learning curve and get off to a Faster Start. We recommend a minimum 3 month initial commitment.

Develop Your Goals in Writing... Does goal setting really work? You bet it does! Here's a great example of the impact written goals have on success.

The Yale Graduating Class of 1953 – Study

3% had put their goals in writing
97% had incomplete goals or none at all!

Twenty Years Later

The 3% who set goals had greater income than the other 97% combined!
* Dreams become goals when they are written down.
* Find a goal big enough to inspire you, and unleash your power.
* Goals give you a vision that keeps you pressing on.

Goals Must Be:

Written - Dreams become goals when they are **in writing.**

Specific - The more specific you can become with your goal, the more likely you will achieve it. Example: I want a ***NEW Vehicle*** ***or the one I drive paid for from bcf*** (Even more specific i.e.: color, year, features, etc.). **(Boat paid for)**

Measurable - So you know when you hit your goal and when you need to put in more effort. Example: I will earn ***4*** **Bitcoin** (qualify). (2x2)

Time Focused - Goals must have a deadline attached to them.
Example: I will achieve ***(2-10 personals) by the end of my first 30 days.***

Goal Setting Worksheet
48-Hour Assignment

I am starting my business for the following reasons. What is important to you?
(Circle all that apply)

Early Retirement	New Car	Vacation Home	Favorite Charity
New Home	Travel the World	Helping Family	Children's Education
More Family Time	Debt Free	Time Freedom	Financial Security

What else? Dream... You've been told that you won the Publishers Clearing House $5 million Sweepstakes give away. In order of priority, what would you do or buy with that money? (Be Specific)

1.

2.

3.

What is your most important goal to achieve as a result of your new business?

What is your income goal?

3 months $_____ **6 months:** $_____ **1 year** $_____ **3 year** $_____

Your Perfect Day

Albert Einstein once said, "Your imagination is the preview to life's coming attractions." It is now time to put your imagination to use. Pretend you have just been hired by a famous Hollywood Director to write the screenplay for your perfect day. Write what your perfect day would be like five years from today. Where would you wake up? What time would you wake up? What kind of house would it be? (Describe it in detail) What would you do when you woke up? Where would you go? In what kind of car would you be driving around town? Etc. Write in detail what your perfect day would be like five years from today. Use a separate sheet if necessary.

Prospect List

If you discovered a goldmine with an unlimited supply, who would you tell about it first? Always remember that you are offering people the gift of health and wealth.

The DO's and DON'Ts of Making a List

DO make your list as long as possible-
• It's your game plan-your greatest asset when starting the business.
• The longer your list, the greater your posture. If you have a list of 10 people and the first five say no, you will feel pressure to sponsor the next five and this can out you into the "begging" mode and will greatly reduce your effectiveness. However, if you have a list of 100, and the first five say no, you have 95 other people to contact and a game plan over the next 30 days.

DON'T ever prejudge anyone-
• They will end up in someone else's organization.
• Sift and Sort - You want to give people enough information so they can make a decision as to whether **Bitcoin Funding team** is right for them. Do not try and talk people into doing the business against their will.

Steps to Developing your Warm Market List

1. Use the Memory Jogger to make a list of **at least** 75 - 200 people that you know on a first name basis and get their email addresses. In addition, you can use the Yellow Pages as a Memory Jogger. Start with the letter A and ask yourself, "Who do I know who is an Accountant, a Banker, and a Carpenter?"

2. Identify those people on your list who:
• Are **Successful (S)**
• Are a **"People" Person (P)**
• Have **Strong Influence** with Others **(I)**

These are the people you will contact first but ONLY with a member of your upline assisting you.

Refer to the Memory Jogger and Prospect List

How to Signup with Coinbase and Fund your Bitcoin Funding Team Account

1) Grab a piece of paper and write down all of your info – userid/passwords to keep in a safe place
2) Log into google chrome
3) Open up two tabs – log into your email account your going on one tab and then log into the other tab www.coinbase.com
4) Hit "SIGNUP" in top right corner
5) Fill in information name, email your going to use, password 12-14 characters, special characters and numbers, then select your state and check the user agreement privacy policy – now make sure you write down all your info before your proceed on and hit "Create Your Account"
6) Next step before your proceed anywhere you need to "verify your email? In order for coinbase to work. Coinbase has just sent you a verification to your email – you need to verify this before you go on to the next step. Now go to your email and you will see a blue bar on that email and it says "verify email address" once you click it – coinbase will recognize that you verified it and Coinbase will OPEN up a New Browser, then go and close the original browser that you used in coinbase and go back to the New Browser that just opened up
7) Next step hit "individual"
8) Next screen will ask you to enter your cell phone number – hit next
9) This screen will make you grab your cell phone and verify the code that was just sent to you from coinbase for your protection – so look at your code on your cellphone that was just texted to you and then enter in the verification code on the computer and press enter
10) Now we are on the step to START FUNDING YOUR ACCOUNT, we need a source of funds to buy your bitcoin – Grab your Debit Card because that will be the best way to immediately fund your Bitcoin account.
11) This is where you will enter in all your Debit Card Info – PLEASE NOTE BEFORE YOU MOVE ON - PLEASE READ THIS - when you put your billing address in – please spell out the address (like N, E or blvd. ct. - you need to spell out everything in your billing address like – North, East, Boulevard and Court) if you don't spell it out you will be blocked from using your account for 24 hours – so PLEASE MAKE SURE YOU SPELL OUT EVERYTHING IN THE BILLING ADDRESS!!
12) Go to buy/sell and make sure your debit card is in there – to the right of it shows increase limits – hit that and it will ask you to upload your drivers license – best way to do it is through webcam – it's clearer and it goes through faster – so make sure you hold still when you do front and back because it can block you out again for 24 hours if you do it too many times.
13) Now I need to find your wallet address in your coinbase – go to tools and your under the addresses, hit to the right a plus sign to create new address – copy that address and put it in your notepad or notes where you can save this for using in later steps to startup your account on bitcoinfundingteam.com . So keep this in a safe place with the other information your saving.
14) Now go to buy/sell and make sure the green box is around Bitcoin, payment method is your debit card information and then it will tell your weekly limit below it and then you want to in put in .12 btc so you have enough money to send to your bitcoinfundingteam.com account for platform fees and upgrading your account to start. To the right of the box you see what you are buying and the payment method – depositing into your BTC wallet and the wait time is instantly. Then HIT BUY BITCOIN INSTANTLY. GO BACK TO DASHBOARD AND YOU WILL SEE YOUR MONEY ON THE TOP RIGHT SIDE UNDER "YOUR PORTFOLIO"
15) So Open up another tab to setup your www.bitcoinfundingteam.com account under what referral link was sent to you from a friend and/or family – it would be something like this: www.bitcoinfundingteam.com/ref/usernameofreferralperson (username of referral person)
16) Hit "Register" in blue box

17) Make sure sponsors username and sponsors name is correct before proceeding. Leave the placement username and placement name alone as it will automatically place you under the next available open spot under your sponsors name.
18) Under Account Details fill in: desired username, your email, first name, last name, phone, country, security information – password and security question with security answer – remember write everything down in notepad or a piece of paper. You will want to hit the wallet provider and change it to: coinbase and then provide the wallet address you saved in your notepad for coinbase and copy and paste it into the bitcoin wallet address – it will be a long set of numbers and letters WITHOUT the dashes in it.
19) Hit I'm not a robot
20) Click Create Account
21) Now it will ask you to pay for your platform fee of 0.0008 btc which right now is around $10.00 – so you need to copy the red box (wallet address) that says copy and then go to your coinbase account to fund the platform fee.
22) Go to coinbase.com and "Send/Request" on left side of screen
23) Send Funds on the top of screen will show up and under recipient paste the wallet address from bitcoinfundingteam and then go back to the bitcoinfundingteam and hit the blue button (the amount) to copy the amount and go back to coinbase and in the amount field paste the amount. Then Hit Send Funds in the blue box below. Then go back to bitcoinfundingteam.com and at the bottom of that page Hit "I Paid"
24) Next Step go to Home and then hit Dashboard top right. In the dashboard you want to hit "Upgrade" or under my account in the middle of the page hit "activate account" either one will work. This will donate to the user that brought you in 0.10 btc and activate your account.
25) Move down ¾ of the page and your going to donate to the person who brought you in 0.10 btc – copy the red button where it says copy (wallet address) and then go to coinbase.com and hit "Send/Request" in the email or bitcoin address paste the wallet address, then go back to bitcoinfundingteam and hit the blue copy button (amount donating) and then go back to coinbase and paste it into the amount field and then click the blue box to "Send Funds"
26) You need to copy the transaction hashtag of your whole receipt so they know you donated that account. Your still in coinbase.com and under Dashboard under Recent Activity approx. ¼ down the page – see your "Sent Bitcoin" you just sent – Hit the blue arrow in a circle and hit the blue confirmation that's highlighted in blue. It will bring you to another page where you see Transaction and it say's "Hash" copy that entire hash (long set of numbers and letters) and go back to bitcoinfundingteam.com and at the bottom of the page you just copied, paste it into the "Transaction Hash ID" paste that long link into there and press Enter.
27) Now your complete and you have to wait til your funding goes through and when your referral link will Show up on the top of the screen at your bitcoinfundingteam.com account when your pending approval goes through. This process can take anywhere from 10 minutes to 2 hours or more. Depending upon how many people are using the system at the day and time.

Sign up on Blockchain (transactions of all your funding site) to Bitcoin Funding Team

Go to https://blockchain.info/wallet/#/login
Hit Sign up
Put in your email
Put in password twice
Hit – I have read and agree to the Terms of Service
Hit Continue

Now hit the button that says start receiving bitcoin – then a request will come up – copy that wallet address – hit the blue button that says copy – it will then say in green COPIED! Go ahead and X out of that box now! Now email yourself your wallet address and/or write it down in a safe place to use to setup your bitcoinfundingteam site – wallet address is all numbers and letters without the dashes in them.

Go to Security Center tab on the left side of the screen (we need to secure your site before you donate any money)

Hit "verify email" - they sent an email to your email account you signed up with. Before you can Proceed to the next step – go to your email to verify your email – It will say in your email "Blockchain – Welcome to my Wallet" - Open it up and hit the blue box "Yes, this is my email". A new page will show up with a green checkmark saying "Success" go ahead and close out of that tab out and go back to the original tab for blockchain.

Hit Backup Recovery Phrase (Write down your Recovery Phrase and keep it somewhere very safe and secure. Your Recovery Phrase allows you or anyone else with access to it, to restore your wallet and access your funds if you forget your password, or if our service is unavailable.) **Hit the blue box that says Backup Phrase – Print the recovery sheet or get a piece of paper to write down your 12 recovery words – hit the blue box that says next step – write down all the words from 1-4 then hit "next 4 words", write 5-8 words down and hit "next 4 words" then write 9-12 words down and then hit the blue box that says "Final Step" - Now you will need to verify 4 out of the 12 words and type them in and then press "Finish" - now a green circle with a checkmark will appear that you are backed up with your recovery phrase and hit the blue button to "close"**

Next security button is to "Create Password Hint" - put a password hint word in and hit the blue "Save" button.

Next step will be to "Link your Mobile Number" put your mobile number in and hit enter. You will now get a text to your mobile phone an SMS message with a verification code. Enter the code that was sent to your phone to verify your mobile phone number – **hit the blue "verify" button to verify it. A green checkmark will appear.**

Next step will be to "Enable Two Step" (2-Step Verification helps prevent unauthorized access to your wallet by requiring a one-time password after every login attempt. Enabling this option helps keep unauthorized users from being able to access your wallet – Hit the blue button that says "enable" - then a small box will appear – hit the open circle to the right of the solid blue circle and then hit the picture of the cell phone and this will enable your mobile phone. It will turn green – says "congratulations! Two factor authentication has been successfully enabled. - then hit the close button

Now on level 3 – hit the "block tor requests" Enable the following option to prevent IP addresses that are known to be part of the Tor anonymizing network from accessing your wallet. The Tor network is frequently used by hackers attempting to access Blockchain users wallets. - then hit the blue box that says BLOCK – you should have a checkmark. Now your entire security center is DONE!

Hit Settings on the left side of the tabs – this will show your Wallet ID – write your wallet ID down in a safe place or email yourself your Wallet ID (wallet ID is a bunch of letters and numbers with the dashes in it)

Now you can either fund your blockchain from Coinbase or buy Bitcoin from your sponsor to send you Bitcoin to your Blockchain to get started. You will need your Wallet address for this, if you are buying from another person to start your donation.

Getting Started with
BITCOIN FUNDING TEAM
www.bitcoinfundingteam.com/ref/sponsorsuserid

BEFORE PROCEEDING WITH BITCOIN FUNDING TEAM WEBSITE YOU NEED TO MAKE SURE YOU HAVE THE FOLLOWING INFORMATION READY BEFORE YOU PROCEED AND ALSO MAKE SURE YOU EITHER SIGNED UP IN BLOCKCHAIN OR COINBASE FIRST:

You should have a link from your sponsor that they want you to sign up just like above but with their sponsoruserid name at the end of it – but if your sponsor just signed up - make sure that the sponsor is already done pending in blockchain or coinbase before you proceed to signing up!!!

If you signed up in Blockchain or Coinbase – make sure to have your wallet address (your wallet address contains a bunch of numbers and letters without the dashes in it) available before you proceed to signing up. You also need to make sure you have been funded in your account before you can start to signup also. Now you can either fund your blockchain from Coinbase or buy Bitcoin from your sponsor to send you Bitcoin to your Blockchain to get started. You will need your Wallet address for this, if you are buying from another person to start your donation.

NOW LET'S GET STARTED WITH YOUR BITCOIN FUNDING TEAM WHEN YOU HAVE THE FOLLOWING INFORMATION ABOVE DONE:

Getting Started with Bitcoinfundingteam

So Open up another tab to setup your www.bitcoinfundingteam.com account under what referral link was sent to you from a friend and/or family – it would be something like this: www.bitcoinfundingteam.com/ref/usernameofreferralperson (username of referral person)

Hit "Register" in blue box

Make sure sponsors username and sponsors name is correct before proceeding. Leave the placement username and placement name alone as it will automatically place you under the next available open spot under your sponsors name.

Under Account Details fill in: desired username, your email, first name, last name, phone, country, security information – password and security question with security answer – remember write everything down in notepad or a piece of paper. You will want to hit the wallet provider and change it to either blockchain or coinbase (whichever has your money in it to fund your account) and then provide the wallet address you saved in your

notepad from blockchain or coinbase and copy and paste it into the bitcoin wallet address – it will be a long set of numbers and letters WITHOUT the dashes in it.

Hit I'm not a robot , Click Create Account

Now it will ask you to pay for your platform fee of 0.0008 btc which right now is around $10 to $15 – so you need to copy and hit the red box (wallet address) that says copy and then go to your blockchain account to fund the platform fee.

Go to your blockchain account and make sure your under transactions and Hit the Send box in the top middle page

A New box will appear and open up, go back to the bitcoinfundingteam.com site and copy the wallet address you are sending the wallet address too – hit the red box that says copy and then go back to the blockchain tab and then paste it into the "To:" box, then go
then go back to the bitcoinfundingteam and hit the blue button (the amount) to copy the amount and go back to blockchain and in the amount field BTC: paste the amount. Under description type "platform fee" - then hit "Advanced Fee" then hit "Next Step", next page Hit "
Send" - Then go back to bitcoinfundingteam.com and at the bottom of that page Hit "I Paid"

Your Dashboard should pop up and In the dashboard you want to hit "Upgrade" or under my account in the middle of the page hit "activate account" either one will work. This will donate to the user that brought you in 0.10 btc and activate your account.

Move down ¾ of the page and your going to donate to the person who brought you in 0.10 btc – copy the red button where it says copy (wallet address) and then go to your "then go back to the blockchain tab and then paste it into the "To:" box, then go back to the bitcoinfundingteam and hit the blue button (the amount) to copy the amount and go back to blockchain and in the amount field BTC: paste the amount. Under description type "upgrade to stage 1" - then hit "Advanced Fee" then hit "Next Step", next page Hit "Send" Now you will need a RECEIPT OF PAYMENT – this is where the hashtag number you need. So on that screen hit the RED "SENT" word under the transaction history – it will then open up where you see a blue arrow coming out of the box – HIT THAT – it will open up another tab called "TRANSACTION" under that word you will see a long set of numbers and letters in a gray box – copy it. Then go back to bitcoinfundingteam.com and at the bottom of the page you just copied, paste it into the "Transaction Hash ID" paste that long link into there and press Enter.

Now your complete and you have to wait til your funding goes through and when your referral link will Show up on the top of the screen at your bitcoinfundingteam.com account when your pending approval goes through. This process can take anywhere from 10

minutes to 2 hours or more. Depending upon how many people are using the system at that day and time.

DECLARATION OF FTC INVESTIGATOR KATHLEEN M. NOLAN
PURSUANT TO 28 U.S.C. § 1746

I, Kathleen M. Nolan, declare that I have personal knowledge of the facts set forth below. If called as a witness before any court, I could and would testify as follows:

1. I am over the age of 21 and competent to give this declaration. I am a Federal Trade Investigator with the Federal Trade Commission (FTC), located at 600 Pennsylvania Avenue, NW, CC-10232, Washington, DC 20580. I am a Certified Fraud Examiner and have a Master of Public Policy degree in Public Policy from George Mason University. I have more than ten years of investigative experience in civil and criminal matters.

2. As an Investigator with the FTC, my primary duties include, but are not limited to: identifying patterns of unfair and deceptive trade practices; conducting computer research using a variety of Internet search engines, public record and law enforcement databases, and computer software-based investigative tools; capturing online content and videos using capture tools; requesting, receiving, and examining information provided by third parties, including information provided by financial institutions, state agencies, and other organizations; and analyzing data related to possible violations of the Federal Trade Commission Act and other laws enforced by the FTC.

3. As part of my duties with the FTC, I was assigned to work on the investigation of Bitcoin Funding Team (BFT), an Internet operation that claims to allow participants to turn an initial bitcoin "donation" into significant bitcoin revenue.

Videos and Websites Associated With BFT

4. During the course of my investigation into BFT, I captured online videos, social media content, and websites, including the materials described below. These materials have been included in the Appendix to Plaintiff's *Ex Parte* Motion for Temporary Restraining Order with Asset Freeze and Other Equitable Relief, and Order to Show Cause Why a Preliminary Injunction Should Not Issue, and Memorandum in Support. The descriptions below include references to the Appendix page numbers. The materials included in the Appendix are true and correct copies of the materials I captured.

5. On July 6 and 11, 2017 and August 1, 2017, I captured certain videos using Firefox Realplayer. Firefox Realplayer is a software program that allows users to download and preserve video and audio files. I captured each of the following:

a. "My First 60 Days In Bitcoin Funding Team Webinar" (captured from YouTube on July 6, 2017) (App. 608);

b. "Bitcoin Funding Team- My First 30 Days!" (captured from YouTube on August 1, 2017) (App. 609);

c. "Bitcoin Funding Team Presentation by Lou Gatto" (captured from YouTube on July 6, 2017) (App. 610); and

d. "Bitcoin Funding Team Complete Presentation" (captured from YouTube on July 6, 2017) (App. 611).

6. On July 6 and 7, 2017, I captured the following websites using Camtasia Studio, a software program that allows users to take screen shots of webpages:

a. "Bitcoinfundingteam.com" (captured on July 7, 2017) (App. 57-90); and

b. "Bcftglobal.com" (captured on July 6, 2017) (App. 91-98).

7. I have been trained in the use of Firefox Realplayer and Camtasia Studio, and I have used them in investigations for several-+ years.

I declare, under penalty of perjury, that the foregoing statement is true and correct.

Executed on February 16, 2018, at Washington, District of Columbia.

How To Find Your Hashtag

Step 1 : Searching A Wallet On The Blockchain

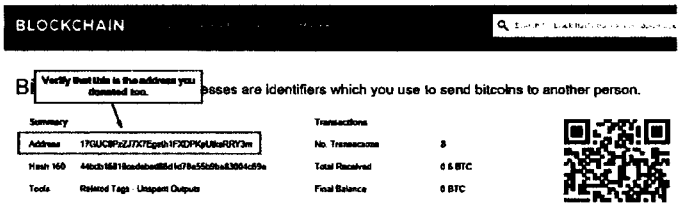

Copy the bitcoin receiving address you send your donation too and paste it into the search box located at the top of the blockchain.info website. Hit enter, submit or return on your keyboard to complete the search.

Step 2 : Verifying Your Search Results

If your search was successful, you should arrive at a website exactly like the photo below.

You must verify that transaction logs you are looking at are associated with the EXACT bitcoin receiving address you sent your donation too.

Step 3 : Finding Your Hashtag.

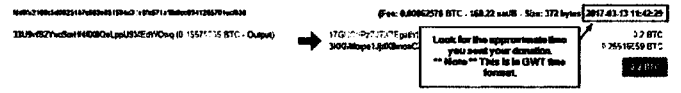

There are a few things to know before you start searching for your hashtag.

1. All "Incoming / received" transactions are indicated by a **GREEN ARROW.**

2. The date/time shown is in GMT format.
If you have trouble converting GMT to your local timezone, here is a tool to help you convert:
http://www.timeanddate.com/worldclock/converter.php

3. *Your donation is usually located at or near the top, as they are listed from newest to oldest by default.*

Start from the top down looking for the appropriate date/time you sent your transaction.

Step 4 : Finding Your Hashtag Cont...

If you are unable to find a transaction around the time you sent your donation, wait 10 minutes and look again.

Sometimes transactions take a while to propogate on each blockchain node.

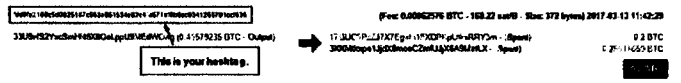

If you find multiple transactions around the same date and time you must verify the following:

1. The arrow is green
2. The bitcoin receiving address you sent your donation too
3. The amount you donated to that address.

** If you cannot verify all of 3 requirements above, return to step 3 **

If you CAN verify all 3 requirements above then you have found your hashtag.

If you are unable to locate your hashtag please submit a ticket to support@bitcoinfundingteam.com providing all the required documentation.

My transaction is taking longer than normal
We don't control the blockchain, so we can't control how fast confirmations take place
The average is around 30 minutes per confirmation, however this can happen in less than 1 minute, and as long as 12 hours
Please allow sufficient time for the confirmation to take place, in order for our system to verify the upgrade successful
If you are sending from a blockchain.info wallet, please ensure you are paying the "transaction fee"

What is the blockchain

What is a 'Blockchain'

A blockchain is a public ledger of all Bitcoin transactions that have ever been executed. It is constantly growing as 'completed' blocks are added to it with a new set of recordings. The blocks are added to the blockchain in a linear, chronological order. Each node (computer connected to the Bitcoin network using a client that performs the task of validating and relaying transactions) gets a copy of the blockchain, which gets downloaded automatically upon joining the Bitcoin network. The blockchain has complete information about the addresses and their balances right from the genesis block to the most recently completed block.

BREAKING DOWN 'Blockchain'

The blockchain is seen as the main technological innovation of Bitcoin, since it stands as proof of all the transactions on the network. A block is the 'current' part of a blockchain which records some or all of the recent transactions, and once completed goes into the blockchain as permanent database. Each time a block gets completed, a new block is generated. There is a countless number of such blocks in the blockchain. So are the blocks randomly placed in a blockchain? No, they are linked to each other (like a chain) in proper linear, chronological order with every block containing a hash of the previous block.

To use conventional banking as an analogy, the blockchain is like a full history of banking transactions. Bitcoin transactions are entered chronologically in a blockchain just the way bank transactions are. Blocks, meanwhile, are like individual bank statements.

Based on the Bitcoin protocol, the blockchain database is shared by all nodes participating in a system. The full copy of the blockchain has records of every Bitcoin transaction ever executed. It can thus provide insight about facts like how much value belonged a particular address at any point in the past.

The ever-growing size of the blockchain is considered by some to be a problem due to issues like storage and synchronization. On an average, every 10 minutes, a new block is appended to the block chain through mining.
